- Technology

Full-Stack Developer with 3 years of professional experience building web applications across frontend and backend development. Experienced with React, Next.js, TypeScript, Laravel and Angular, with hands-on experience in REST APIs, databases and responsive UI development. Continued developing software through personal projects and self-study alongside my professional work.

Professional Experience

Software Development — Personal Projects & Self-Study

2023– Present

- Continued developing web applications using React, Next.js and TypeScript alongside full-time work.
- Built and maintained personal projects while keeping my software development skills current.

Tire Technician

SIA "R1" · Mar 2023– Jul 2026

- Performed tire changes, wheel balancing and tire repairs.
- Trained colleagues and monitored work quality to ensure jobs were completed correctly and efficiently.
- Communicated directly with customers, discussing their needs and explaining recommended services.

Full-Stack Web Developer

SIA "R1" · Apr 2022 – May 2023

- Developed and modernized the company's website using Laravel and jQuery.
- Designed UI/UX prototypes in Figma and translated designs into responsive interfaces.
- Built reusable components and integrated REST APIs, XML and Google Maps.

Front-End Web Developer

SIA "Bidstack" · Sep 2020 – Dec 2021

- Developed frontend functionality using TypeScript, Angular, Storybook and Sass.
- Implemented API integrations and responsive interfaces.
- Used Git for version control and collaborative development.

Back-End Web Developer

SIA "Apply" · Jul 2019 – Jun 2020

- Developed backend functionality using Laravel and Vue.js.
- Built internal tools and integrated external services through APIs.
- Worked with the development team to implement features and fix bugs.

Selected Projects

Spellio — Wordle-style web game

Next.js · TypeScript · Tailwind CSS

- Built an interactive word game with a responsive UI and game-state management.
- Developed the application using modern React/Next.js patterns.

Personal Portfolio

Next.js · TypeScript · Tailwind CSS

- Designed and developed a responsive developer portfolio showcasing projects and experience.

Education

Professional Secondary Education — Programmer · 2016 – 2020

Rīgas Tehniskā Koledža

2016 - 2020

Secondary Education

Rīgas 64.vidusskola

2007 - 2016
